Python Developer

Description:

We are looking for experienced, motivated, and ambitious Python Developers to join our team and be involved in designing, development, coding, and customization of our application.

Eligibility Criteria:

Candidates must have a Bachelor's degree in a related field such as Computer Science/Cyber Security/Information Security with at least 1 year of relevant experience or Master's degree in Computer Science/Cyber Security/Information Security.

Requirements:

1. Proven experience as a Python Developer with expertise in Django/Flask framework.
2. Proficiency in databases (e.g., PostgreSQL, MySQL) and ORM libraries.
3. Experience with front-end technologies such as HTML, CSS, and JavaScript is a plus.
4. Good grip in Python backend frameworks such as Django, and Flask.
5. Familiarity with containerization and deployment using tools like Docker and Kubernetes.
6. Proficiency in testing and debugging codes to ensure high performance and reliability.
7. Ability to collaborate on projects and work independently when required.
8. Ability to write reports and document code is a must.
9. Working knowledge of Digital Forensics Application would be a plus.
