WE ARE HIRING
SENIOR PRODUCT ANALYST

Reports to: Head of Product Development

JOB ROLE:

As a Senior Product Development Analyst, you will work with the Product Development team to research industry trends, prepare correspondence, analyze product initiatives, and assist in the development of innovative investment products.

KEY RESPONSIBILITIES:

- Collaborate with the Product Development team to conduct comprehensive secondary source research on the asset management industry, products, market demands, and industry changes. Provide valuable insights to shape our product strategy.
- Assist in the preparation of correspondence related to product development and regulatory compliance, ensuring accuracy and timeliness in documentation.
- Analyze and deliver product-related initiatives that address the unique needs of various distribution channels, ensuring our products are well-positioned to serve diverse customer segments.
- Support in the drafting of constitutive documents for collective investment schemes and assist in obtaining approvals from relevant regulatory bodies, ensuring compliance with regulatory standards.
- Assist in obtaining ratings from credit rating agencies regarding the organization and various investment schemes, to enhance the credibility of our offerings in the market.
- Collaborate with the Product Development team in preparing presentations on various topics to be presented to the board and clients. Highlight the innovative solutions and opportunities offered by our company.
- Ensure that all existing product offerings are up-to-date in terms of product features and regulatory requirements, maintaining the quality and compliance of our products.

LOCATION
- The position is based at our Head Office in Karachi, Pakistan

EDUCATION
- Bachelor's or Master's degree in Finance, Economics, or a related field.

EXPERIENCE
- 2 - 3 years of experience within the specific domain of Product dvelopment.
