

THE CITIZENS FOUNDATION

WE ARE HIRING!

Supply Chain Business Analyst

Responsibilities

- Conduct a thorough analysis of supply chain processes including procurement, logistics, and inventory management, and work with cross-functional teams to gather business requirements.
- Utilize data analytics to analyze large datasets, identify trends, and develop reports and dashboards for monitoring supply chain KPIs, aiding in decision-making and operational enhancements.
- Implement strategies to optimize supply chain efficiency, address issues like inventory discrepancies, and collaborate with IT and Finance for system improvements, while staying updated on industry trends and training staff.

Experience: Proven 5-6 year of experience as a Business Analyst or similar role, specifically within supply chain operations.

Qualification: Bachelor's / Master degree in SCM, IT, or a related field
